CRUDE OILERS PLAY SWEETWATER

The General Crude Oilers have for their victim, Sunday, May 7th, the Sweetwater Mustangs. The Oilers lost 4 games last year and Sweetwater won two of those. The reports this year are that Sweetwater has a stronger team than their team last year.

The Oilers have played 4 games this year; won first game from Abilene, 19-13; lost 2nd game, 15-17; won 4th game from Lueders, 6-5. They came from behind in the 9th inning to score two runs to win the 4th game. Lueders took the lead in the 1st inning, held it until the 7th, the Oilers tied the score only to have Lueders take the lead again in the 8th. The Oilers scored twice in the ninth to win.

The Oilers are missing the timely batting of Arice Jones this year, who is playing with the Snyder club, which the Oilers will play in Hamlin, June 4th.

It now looks as though one Duck Weaver is going to step on up and set the pace Jones did last year for the Oilers batmans. Weaver is hitting over 500 now, and getting plenty of extra base hits.

INJURED IN CAR NEAR MCCAULLEY

Mr. and Mrs. H. A. Eckler suffered serious injuries in an auto accident near McCaulley, Monday morning about 11:30 o'clock. They were returning from Sweetwater where they had taken their daughter, Miss Ruth to take a train for Muleshoe where she was going to visit her brother. When the accident occurred Mr. and Mrs. Eckler had left the highway and were driving on the road to McCaulley when their car struck loose gravel and swerved into the ditch, the sudden impact causing injuries to both occupants. The steering wheel broke and struck Mr. Eckler in the chest but his most serious hurt was a broken knee cap.

Mrs. Eckler sustained very painful cuts and bruises and broken ligaments in her shoulder. Both were brought to Hamlin where they were given treatment, and later Mr. Eckler was taken to the Santa Fe Hospital in San Angelo. At this time both are reported to be recovering nicely.

After the accident Miss Ruth was notified of the injury to her parents while she was in Slaton. She returned by the next train to Snyder where Mrs. W. T. Cherry met her and brought her on to Hamlin.

L. T. Middleton and wife of Lamesa came down Monday to visit with their father, T. B. Middleton and brother, Bee Middleton and wife. Mr. Middleton has been on the Plains about 20 years. He says they had rain about three weeks ago and he is through planting.

Mr. and Mrs. C. H. Stonesifer of Vernon are enjoying a two weeks visit with their sons, Elmer and John Stonesifer.

Mr. and Mrs. Everett Smith and two children are to make their home in Hamlin following school closing at Lamesa. Mr. Smith is opening a welding shop just east of the Safeway Store. He has been here two weeks getting his business located and started.

Mrs. Clyde Whitaker is sending the Hamlin Herald to her mother, Mrs. W. M. Watson in Fairfield, Texas. This is a gift Mrs. Watson will enjoy every week during the year.

Mrs. Cleve Dunn left this week for Ruidosa, New Mexico to open her Texas Cabins and make ready for the summer season.

Jodie Creel spent Sunday in San Angelo with his wife who is there in the home of her mother, convalescing from a broken leg which she suffered some weeks ago. Mr. Creel reports Mrs. Creel is improving and is now able to walk with crutches.

The Hamlin Herald makes a nice Mothers Day gift.

RAIN MACHINERY NOT OUT OF SHAPE

Many people have been hinting discouragement as regarding rains. Infact they might have some excuse. The month of April closed its career in the dry. It was perhaps the driest April in nearly fifty years. Really dryer than the famous April of 1918, if records are correct.

But May promises a better deal. Just as the last flying moments of old April sped away, there was about a quarter of an inch of rain meaning Sunday night. Old-timers say that it takes some time for the "elements" to prime up. So again that is encouraging.

Maybe the old-timers are right. Another "priming" visited this section in the early morning hours of Wednesday. Got a little more and from the booming of the thunder, evidently the spread was more than Sunday night. Reliable guesses say we had a full half inch. We are writing this Wednesday morning, May 3rd, and the clouds are promising more. Best looking clouds we have had in a long time.

NOW WHAT ABOUT CROPS

Just to keep the record straight, let us say that everything points to an almost complete wheat failure. Not as much planted as usual, but what we do have is heading short down on the earth, and maybe will hardly be worth harvesting.

Not many farmers have planted seed of anything yet. Some however have dusted in both cotton and maize. Pastures are dry and stock are going to suffer if rains do not start the grass to growing.

Old-timers say that "we are going to need rain pretty soon," and that is encouraging. Back in years of long ago, rains were slow and farmers did not get to plant till up in June and made a bumper crop but that was before the modern boll weevil bug discovered Texas.

About the only thing the lack of rains are helping is road building, and that is going on all about Hamlin.

Three Winners In Baby Show At the Ferguson

The Baby Show, sponsored by the Ferguson Theater and the Henson Studio, which was held Tuesday and Wednesday nights of last week, was the main attraction for those nights. Over 200 pictures of babies of Hamlin and community were shown on the screen in three different age groups, and the winner for first place in each group was decided by ballot votes from the audience. The prize to each winner was \$5.00 in cash from Mrs. B. S. Ferguson, manager of the theatre, and a beautiful \$7.50 picture given by Mr. Henson of the Henson Studio.

The winner of the first group which included babies up to two

years was the son of Mr. and Mrs. Leslie Hodges, Hamlin, Rt. 3. This little man is 16 months old, but the Herald regrets we could not learn his name, but we know he has one and if we were guessing we would say Leslie Jr.

Winning in the second group was Gene Rimmer, son of Mr. and Mrs. John Rimmer of Plasterco. This group included children from 2 to 4 years of age and Gene is a fine little man to represent this group.

Little Miss Nina Sue Burton carried off honors for the girls. She is the daughter of Mr. and Mrs. J. H. Burton, of Hamlin and was the winner in the group, age 4 to 6.

LITTLE BUSINESSES MAKE A "BIG BUSINESS"

Retail merchandising is an immensely important economic factor in our national life. A recent survey concerning a year's spending by one branch of the merchandising industry—the chain stores—indicates just how great a factor it is.

These stores purchased close to \$5,783,000,000 worth of merchandise from American sources of supply in the year in question. They paid about \$437,000,000 in rents to property owners in thousands of communities scattered throughout the 48 states. They spent over \$550,000,000 for repairs, equipment, heat, light, etc.

Their thousands of employees received the gigantic sum of \$1,314,000,000 in wages. Tax collectors—state, federal and local—came in for \$255,900,000. And their advertising budgets, much of which money was expended in local newspapers and with local printers, totaled \$141,000,000.

Figures are not available for the expenditures of all independent merchants. But these merchants do about 70 per cent of all the retail business in the United States.

Equally as important as the mere dollars and cents figures, is the fact that retail merchandising, whether done by single-unit or multiple-unit stores, is an intensely local business. Most of the payroll goes to local residents, who spend it at home. A large part of their commodity purchasing is from local farmers and processors, who in turn support other local payrolls. Practically all of the money paid for rents goes to local property-owners. And a big proportion of their taxes go to local units of government.

Yes, merchandising is "big business"—a big business made up of tens of thousands of little businesses in every center of population, however small, in this vast America of ours.—Industrial News Review.

Pink roses decorated rooms where two tables of 84 were in play. At the conclusion of the games a salad course with punch was served.

Those present were Messrs. and Meses. R. B. Wiar, Gordon Bennett, H. O. Cassle, J. E. Moody, B. B. Campbell, Dr. and Mrs. Joe McCrary, Meses. Mart Farrow, and W. H. Gilbert and Mr. Louis Ezell.

CORRECTION: Last week, the Herald had an item about a Tech student. We said Audine Vaughan was "Miss" and it should have been Mr. The College also made a mistake the correct initials of the parents should be J. F. Vaughan and not "C." Anyway, all of us are glad Audine is making A's.

McCAULEY MATTERS

By JOHN P. HARDESTY

We greatly appreciate the High School Chorus Club's beautiful serenade on last Thursday night. It was thoughtful of them to dispense their melodies among their friends. It is so much more appropriate than the unearthly "squawks" that some people are constantly dispensing.

Lum Eddleman of Joshua, Texas, is visiting old friends in this community, among whom are the O. R. Hendersons, Oscar Jones families, the Wickers, and this scribe. Mr. Eddleman was our boyhood friend, whom we had not seen for a good many years. Mr. Eddleman lived in this community for some years back about 1907 to 1910.

The P. T. A. of the local school closed out the year with a very impressive program on last Thursday night, rendered by Mrs. Heflin Miller of Hamlin, assisted by members of her speech arts class.

Officers of the P. T. A. re-elected for the next term are Mrs. Louis H. Boyd, president; Mrs. Melvin Courtney, Vice-President; Miss Hattie Logan Clay, Treas., and Miss Birdie Cleo Crabtree, Sec'y., V. W. Jackson, Parliamentarian and Mrs. George Maberry, Reporter.

Mrs. Melvin Courtney has received notice of her appointment as a member of the Fisher County Land Use Planning Board, by T. H. Roensch, County Agricultural Agt., and Jewell Hipp, County H. D. Agent. This Board had a meeting at Roby, April 24, when they were visited by J. W. Prewitt and Miss Ruth Thompson, District Agents, who had charge of the meeting.

Alline and Nola Akins, both working in Sweetwater and Lillian Akins, of Abilene, were visitors with home-folks over the week-end.

Rowland Stephenson, teaching at Tucumcari, N. Mex., visited his mother and other relatives here last week-end.

Miss Ruby Hennington has returned from Ropesville where she visited for some weeks with her sister's family, the Ray Martins, former residents here.

Mrs. W. C. Kean has received word that her father, J. W. Smith, whose home is in Pittsburg, Texas, has been taken to a hospital in Hot Springs, Ark., for treatment. He has suffered from rheumatism for some time.

Rain! At last rain! Unofficial estimates are from a half to one inch of rain fell early Wednesday morning. This gives considerable stock water, and cistern water for home consumption, for which we should be profoundly grateful. It is thought that farmers may plant on this moisture.

Guest preacher at the Baptist church next Sunday morning will be Wesley Akins, a McCauley reared boy, now living at Benjamin. His many friends will appreciate the privilege of hearing this fine young man bring his message. The high school graduates and friends will hear the baccalaureate sermon by Dr. Turner, of McMurtry College, at the evening hour.

The Fisher County B. T. U. rally meets at Roby, Friday night, with

the Rev. Cooper Waters, new pastor of the Roby church, as guest speaker. The B. A. U. of McCauley church will give the program for the adult division.

An all day study course for S. S. workers will be given at the local Baptist church next Monday, beginning at 10:00 o'clock. This course will be taught by a visitor, either B. N. Shepherd or O. D. Henley. Those attending will bring lunch to be served at the church at the noon hour.

Luther Maberry, who works for General Crude in the oil field, is suffering from a badly bruised hand received while wrenching rods on a work job about ten days ago. His physician advises that it will be several weeks before he will be able to resume his work.

J. W. Rector, who has had his tank cleaned and enlarged is rejoicing over a fine supply of water, the rain of today furnished. Dave Maberry, J. A. Jackson, S. E. Miers also have had their tanks cleaned and enlarged.
